HELP RAISE MONEY WITH FIRE FICTION!

CSFA has partnered with author, Michael Archer and online bookseller, emsbooks.com to bring you some of the best in Fire Fiction at a great price. A portion of these proceeds will go directly to CSFA Firefighter Education Programs.

FIRESTORM

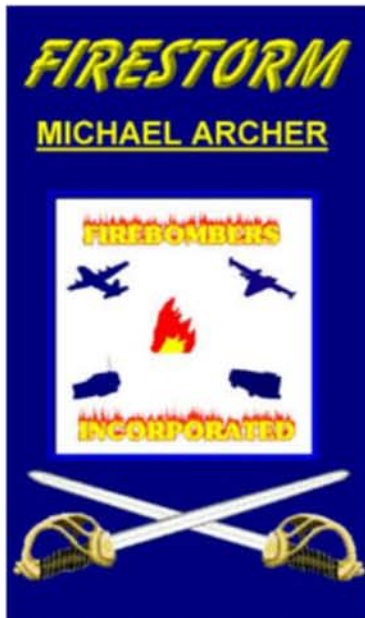

FIREFIGHTERS TRAPPED IN CENTRAL AMERICAN UPRISING! CAN TECHNOLOGY AND QUICK THINKING SAVE THEM?

Firefighters from the elite high-tech firefighting force Firebombers Incorporated are trapped in the jungle in a small Central American nation and threatened with capture by mercenaries of a ruthless drug lord! It's all in Michael Archer's new novel Firestorm. Joseph Talon, billionaire entrepreneur and founder of the high-tech firefighting company "Firebombers Incorporated", takes a desperate gamble to stave off bankruptcy by leading the organization down to the Central American republic of San Pietro. However, his hopes of winning a long-term firefighting contract from the fledgling government are sidetracked by a revolt incited by drug lord's intent on wresting control of the country from the legitimate government.

When a group of his firefighters is trapped deep in the jungle, cut off from help, and surrounded by guerillas, Joe is forced to make an agonizing choice: Hope that he can ransom his people from the drug lords... or try to rescue them in the face of an overwhelmingly powerful enemy force. Firebombers Incorporated was founded by a diverse and dedicated group of firefighters, business leaders, engineers, and ex-military personnel. It is the most advanced organization of its kind anywhere in the world. By melding together proven firefighting techniques with the latest in electronics, computers, and space-age materials, an elite, hard-hitting force is created. The air wing of Firebombers Incorporated consists of scores of C-130 transport aircraft and dozens of modified CL-415 'Super Scooper' air-tankers that use leading-edge electronics and computers to perform pinpoint air strikes, day or night. Ground forces include bulldozers, airlandable engine companies, and hundreds of smokejumpers, all of which provides massive response to large wildfires.

Firestorm continues the enthralling saga of "Firebombers Incorporated". Michael Archer's first novel "Firebombers Incorporated" introduced readers the world over to this elite futuristic firefighting organization.

"In FIRESTORM, Mr. Archer offers a story of excitement and high drama in the back cover copy, and what the author delivers exceeds expectations. The concept is interesting and intriguing. Both internal and external conflicts are skillfully interwoven, creating a seamless story with a powerful impact. Pacing throughout the book is quick, with building tension driving the plot to a satisfying ending."

–Writer's Digest

"This book has it all. A possible corporate bankruptcy, civil war in a foreign country, and wildland firefighting. Joe Talon must save his private firefighting company from bankruptcy, his firefighters from drug lords in a foreign country, and fight a wildland inferno at the same time. Can He do it? Although this is a work of fiction, it is a must read for anyone who wants to learn about the perils of wildland firefighting. FIRESTORM is full of action and a very enjoyable read"

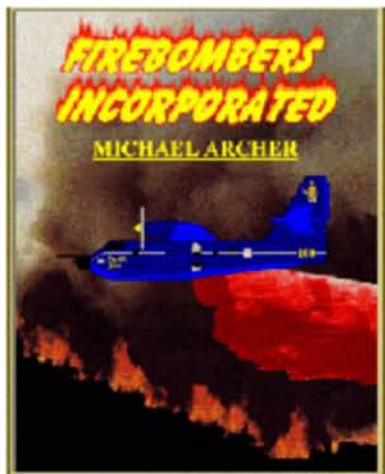

– Roger Bair, President, Ohio State Firefighters Association

"...portrays [firefighting] realistically ...I enjoyed it and feel there are a number of firefighters who might also"

– Kevin McMasters, President, Arkansas State Firefighter's Association

Fire Bombers Incorporated

Firebombers Incorporated is a novel about redemption. Billionaire entrepreneur Joseph Talon suffers the tragic loss of his family in a forest fire, but out of his loss, a high-tech firefighting organization is born. Founded by a diverse and dedicated group of firefighters, business leaders, engineers, and ex-military personnel, it becomes the most advanced force of its kind anywhere in the world. By melding together proven firefighting techniques and the latest in electronics, computers, and space-age materials, a hard-hitting, highly mobile force is created which is able to fly all of its personnel and equipment to a forest fire.

About the Author: Michael Archer holds degrees in Agriculture, Electronics, and Engineering Technology. Having worked as an engineering crisis manager for Printrak, a Motorola Company, he has employed the services of firefighters in order to lend realism to the storyline. Fifty percent of the profits from the sale of Firebombers Incorporated products go to firefighting relief agencies supporting the families of injured and fallen firefighters, such as Wildland Firefighter Foundation.

Firebomber Publications is a small press dedicated to providing exciting firefighting fiction to the general public. More information: www.firebomberpublications.com.
